

Let's have some Math fun!

# The Best Math Problem, EVER!

How can I spend less time worrying if my students are learning what they need?

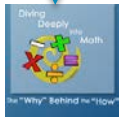

Check out the freedom of understanding the NAD Math

No problem! Check out the language and math connection!

I heard a teacher say, "The best math problem is one I don't have to do!"

I just need to know how to make Go Math!/Big Ideas work in my class!

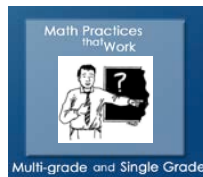

I need to know where to get Go Math!/Big Ideas tools!

I would suggest that you try "Resources" in the Curriculum Help section!

I found it possible to teach 7 grades in an hour without losing my mind!

**If you have questions...!** Check out this website to connect with other teachers, find new math apps, and enter to win great prizes: <https://www.facebook.com/NADMath>
